# CARTE BLANCHE

This fun and educational application allows you to learn new things with Buddy! For example, it allows elementary school teachers to work on learning tasks with children with special needs using Buddy as a motivator.

The application comes with a set of white/blank cards on which it is possible to edit and draw content. Once the content has been edited, there are 2 game modes: "Teacher Buddy" and "Student Buddy". In "Teacher Buddy" mode, Buddy asks the player about the contents of the cards. In "Student Buddy" mode, Buddy names the cards that the player shows him.

FEATURES

- 35 cards supplied with flash code
- Personalize your cards with your own content
- Each card can have several categories of content to configure as you wish
- 9 cards already ready to use to work on colors, animals, numbers.
