# Buddy
The Emotional Robot

SPARK

This application from our partner Intuitive Robots, intended for customer experiences, integrates the best conversational agents (chatbots), in particular OPEN AI/GPT3, giving Buddy all the power and intelligence to offer rich and natural interactions with humans.

Beyond its natural language processing capabilities, Spark gives you access to a wealth of fun or educational applications, and other easily configurable application templates from a web interface to allow you to present activities of your company for hospitality in retail, enterprise or to animate your events, points of sale...
