

TELEBUDDY

The telepresence solution comes with 2 applications: "MyBuddyApp" on the tablet or smartphone side and "TeleBuddy" on the robot side.

When Buddy is connected to your tablet, you can use it to pilot Buddy and talk through it with remote people!

FEATURES

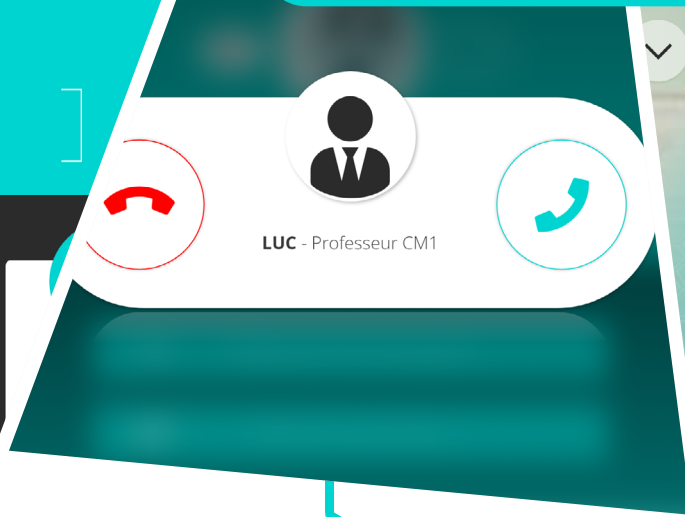

- Move Buddy forward/backward
- Rotate Buddy right/left
- Raise/lower Buddy's head
- Rotate Buddy's head right/left
- Activate your camera or display Buddy's face
- Change your Buddy's facial expression
- Activate/Deactivate your microphone to speak through your Buddy
- Make Buddy speak / Display messages on your robot's face
- Take photos
